

### **Take & Toss Sippy Cups**

**To use:** If shaken or squeezed, drips or leakage may occur. After multiple dishwashings, spill-proof performance may deteriorate. If child holds cup upside down, a few drops may come from the spout. Do not use with carbonated beverages or juices that contain pulp.

**To clean:** Wash before initial use. Dishwasher safe (top rack only) or wash in warm water using mild liquid soap. Rinse thoroughly with clear water. DO NOT BOIL.

**Caution:** Do not use with hot liquids that may result in burning. To prevent injury, do not allow child to walk or run while using cup. Prolonged contact with some liquids, other than water, may cause tooth decay. Travel cap is not intended to be used as a teether.

### **Take & Toss Straw Cups**

**To use:** After filling cup with desired amount of beverage, put the lid onto the cup and then insert the straw into the lid. If shaken or squeezed, leakage may occur. Do not use with carbonated beverages.

**To clean:** Wash before initial use. Dishwasher safe (top rack only). Or wash in warm water using mild liquid soap. Rinse thoroughly with clear water. For best results, place straw in a covered utensil basket when dishwashing.

**CAUTION:** Do not use with hot liquids which may result in burning. To prevent injury, do not allow child to run with straw in cup. Prolonged contact with some liquids, other than water, may cause tooth decay. Straws are not intended to be used as a teether. Please do not allow your child to bite or chew on straws as this could lead to leakage, tearing or breaking. If straw is damaged, please remove straw and discard immediately. Discard plastic wrap immediately after opening. DO NOT BOIL.
